

Message from MD

Covid -19 pandemic has thrown various unique challenges for India - in terms of preparedness of our health infrastructure/ equipment/ accessories on a significantly large scale in extremely short time to mitigate the spread of virus. Availability of high quality Masks/ mask making machines, Ventilators, PPE Kits, Industrial sanitisers, Sanitising tunnels etc are just a few examples of what our nation needs .

We at BFW swiftly responded by repurposing our core strengths of innovation and engineering capabilities and developed several solutions. High quality masks as well as fully automatic mask making machines for high volume production of high quality 3ply and N95 Masks, Hands free sanitiser stands are few examples of array of solutions under “BFW Health” product platform.

As a first step we are deploying these products for service of nation, we will rapidly extend them for Global consumption after our ongoing process of CE certification is accomplished. Going ahead We will also bring in more innovative products for healthcare ecosystem in true spirit and full support of “ Atmanirbhar Bharat “

We continue to look forward for your support and proactive suggestions for our new initiative

**Warm Regards,
Ravi Raghavan**
